

1. Sodium chlorate _____
2. Iron(II) chlorate _____
3. sodium acetate _____
4. aluminum sulfate _____
5. Lead(IV) sulfate _____
6. Magnesium iodate _____
7. Sodium Arsenate _____
8. aluminum carbonate _____
9. stannic sulfITE _____
10. calcium phosphate _____
11. nickel(II) hydroxide _____
12. plumbous nitrate _____
13. hydrogen dichromate _____
14. magnesium perchlorate _____
15. Magnesium ChlorITE _____
16. Iron(II) iodate _____
17. Barium oxalate _____
18. Calcium Sulfate _____
19. Lead(II) sulfae _____
20. lithium chromate _____
21. Barium thiocyanate _____
22. aluminum permanganate _____
23. tin(II) phosphate _____
24. Rubidium silicate _____
25. cobaltic hydroxide _____
26. Aluminum acetate _____
27. hydrogen nitrITE _____
28. Nickel (III) acetate _____
29. iron (III) nitrate _____
30. aluminum phosphate _____
31. Barium cyanide _____
32. Arsenic(III) fluorIDE _____
33. Zinc Chloride _____
34. Copper(I) sulfide _____
35. Chromium(III) Chromate _____
36. Rubidium iodate _____
37. hydrogen phosphate _____
38. Hydrogen sulfate _____
39. Aluminum Hypochlorite _____
40. Nickel(III) hydroxide _____
41. Calcium nitride _____
42. Barium phosphide _____
43. tin (IV) Sulfide _____
44. Aluminum nitrate _____
45. Aluminum nitrite _____
46. Aluminum nitride _____
47. calcium nitride _____
48. Ammonium Oxalate _____
49. sodium acetate _____
50. sulfur(VI) oxide _____
