

QUARTER REVIEW PART 1

Write CORRECT formulas for the following compounds.

1. Aluminum fluoride

2. lead (II) telluride

3. copper(I) nitride

4. magnesium nitride

5. Iron (III) nitride

6. Lead (IV) iodide

7. Tin(IV) chlorate

8. Nickel(III) sulfide

9. Aluminum phosphATE

10. copper(II) phosphATE

Complete and balance **BrINCLHOF**

1. Zinc chloride + sodium phosphate
yields sodium chloride + zinc phosphate

2. Aluminum carbonate yields aluminum
oxide + carbon dioxide.

3. sodium + aluminum chloride
yields sodium chloride + aluminum

4. sodium oxide + phosphorus (V) oxide
yields sodium phosphate
