

Lab Format
Howe

- Title: The title of the lab
- Purpose: Record the purpose/goal of the lab.
- Materials: Equipment and supplies which are available to use in the lab.
- Procedure: Either developed by the students, or given as instructions. Usually not recorded by the student.
- Data: Raw and derived data collected in the lab is recorded in an organized fashion. Include units.
- Graphs/Charts: Include appropriate graphs/charts. For graphs, label all axes and include a title.
- Calculations: All calculations for derived data are shown here. Show a sample equation before each calculation.
- Conclusion:
1. Describe what was done in the lab.
 - a. Procedure
 - b. Math
 - c. What you learned
 - d. Answer Questions
 2. Identify sources of error. "Human error" is not an acceptable source of error.
